Profile Summary

Computer Science undergraduate with hands-on experience building front-end web applications using HTML, CSS, and JavaScript, including live API integration and responsive UI design. Completed two AICTE-affiliated internships involving IBM Cloud AI deployment and AI use-case research. Seeking a software engineering or web development internship to apply and grow practical development skills.

Education

B.Tech in Computer Science Engineering 2025 – 2028
CGC University, Mohali

Diploma in Computer Science Engineering 2022 – 2025
Govt. Polytechnic, Bhagalpur, Bihar | CGPA: 8.03/10

12th (Non-Medical) 2022
D.S. College, Katihar, Bihar | 66.4%

Internship

AI & Cloud Intern — Edunet Foundation (AICTE Collaboration) June 2024

- Deployed and managed three AI models on IBM Cloud, including a chatbot, as part of an AICTE-collaborated program focused on AI-driven solutions.
- Automated query handling and information delivery, supporting 500+ users and resolving 90% of incoming queries.

AI Research Intern — Skillible (AICTE Collaboration) August 2024

- Analyzed 50+ advanced AI use cases across marketing, finance, and healthcare domains, with a focus on ad servers and demand-side platforms.
- Evaluated emerging AI technologies to identify optimization opportunities for real-world applications.

Projects

Weather Forecast App

- Built a weather forecast web application that fetches and displays real-time weather data using the OpenWeatherMap REST API.
- Implemented dynamic DOM updates to render live weather conditions based on user-entered location input.
- Designed a clean, responsive interface enabling quick, intuitive weather lookups.
- Tech Stack: **HTML, CSS, JavaScript, OpenWeatherMap API**

Amazon Clone

- Developed a responsive e-commerce front-end replicating Amazon's UI, including product listings and shopping cart functionality.
- Implemented interactive cart features allowing users to add and manage items dynamically.
- Focused on layout fidelity and cross-device responsive design.
- Tech Stack: **HTML, CSS, JavaScript**

To-Do List Application

- Built a task management app supporting task creation, deletion, and completion tracking.
- Used JavaScript DOM manipulation and event handling to manage task state without page reloads.
- Tech Stack: **HTML, CSS, JavaScript**

Skills

Technical Skills

Languages: C, C++, Java, Python, JavaScript
Web Technologies: HTML5, CSS3, Responsive Web Design, DOM Manipulation
APIs & Integration: REST API Integration (OpenWeatherMap API)
Cloud & Platforms: IBM Cloud

Soft Skills

Problem-Solving, Critical Thinking, Communication, Teamwork, Decision-Making

Achievements

- Participated in Smart India Hackathon (SIH), a national-level hackathon, as part of a team (2025)
- Participated in Hack-N-Win 3.0, a 2-day hackathon organized by CGC University, Mohali in collaboration with D4 Community, focused on innovation and technological problem-solving (March 2026)
- Participated in Prompt Battle 1.0, an AI-focused competition by the Dept. of CSE, CGC University, Mohali (ACM Chapter), showcasing prompt engineering and creative thinking (February 2026)

Certificates

- PCAP – Programming Essentials in Python (May 2024)
- Cybersecurity Essentials (May 2024)
- CCNAv7: Introduction to Networks (May 2024)
- pySecure: Hands-on Python Workshop for Cyber Defense — CGC University, Mohali (February 2026)
